

**Specifications****Portable Antenne Wlan 2.4GHz****Photos****Code-Nr.: 60603151****Electrical properties**

|              |                        |
|--------------|------------------------|
| Antenna type | Equipment for terminal |
| Frequency    | 2400 - 2500 MHz        |
| Impedance    | 50 Ohm                 |
| Polarization | Vertical               |
| Emission     | Omnidirectional        |
| Gain         | 2 dBi                  |
| Bandwidth    | See «Frequency»        |
| VSWR         | less than 2.0          |
| Max. Power   | 50 Watt                |

**Mechanical properties**

|             |                                   |
|-------------|-----------------------------------|
| Colour      | Black                             |
| Dimensions  | Length: 160 mm<br>Diameter: 10 mm |
| Weight      | 27 ± 10 g                         |
| Connector   | RP SMA male                       |
| Temperature | -40°C to +70°C                    |
